## HADAMARD PRODUCT OF SUBCLASS OF UNIVALENT FUNCTIONS WITH MISSING EVEN COEFFICIENTS

## S. M. RAJAS & S. M. KHAIRNAR

## Abstract

In the present paper we introduce a subclass of univalent functions with missing even coefficients on the lines of Silverman and Berman [1]. We have obtained some properties of this class like Coefficient estimate, Hadamard product, Extreme points, Distortion and growth theorem of univalent functions. The results obtained are found to be sharp.

**KeyWords :** Convolution, Univalent function, Hadamard product and Cauchy-Schwarz inequality.
