INTEGRAL OPERATORS BETWEEN Lp-SPACES

KULDIP RAJ

Abstract

In this paper we study the bounded ness of integral operators. We also make an attempt to show that the only zero operator is the bounded integral operator if the underlying measure space is non-atomic.

Key Words and Phrases: Integral operator, Lp-space, Atomic measure space and Non-atomic measure space.

2000 Mathematics Subject Classification: Primary 47B20, secondary 46B38.
