SOME COMMON FIXED POINT THEOREMS IN CONE METRIC SPACES

R. KRISHNAKUMAR AND M. MARUDAI

Abstract
Let $P$ be a subset of a Banach space $E$ and $P$ is normal and regular cone on $E$, we prove several common fixed points of contraction and sequence of mappings in complete cone metric spaces and these theorems generalize the recent results of varies authors.

Key Words: Cone metric space, Self mappings, Fixed point.

2000 AMS Subject Classification: 47H10, Secondary 54H25.
