

UNIQUE COMMON FIXED POINT THEOREMS IN COMPLETE METRIC SPACE

D. P. SHUKLA AND SHIV KANT TIWARI

Abstract

In this paper, we shall introduced unique common fixed point theorems for four mappings in Metric space which based on [6] and also our results generalized by [1] Banach, [2] Chatterjee, [3] Cho and Murty, [4] Fisher and [5] Kannan.

Key Words : *Metric space, Compatible mappings, Continuous function, Complete metric space, Common fixed point.*

2000 AMS Subject Classification : 47H10, 54H25.
