**Abstract**

A general result concerning absolute indexed summability factor of an infinite series using quasi- $f$ -power increasing sequence which generalizes the result of Paikray.

---

Key Words :  $|\bar{N}, p_n|_k$ -summability,  $|\bar{N}, p_n, \alpha_n|_k$ -summability,  $|\bar{N}, p_n, \alpha_n; \delta|_k$ -summability,  $|\bar{N}, p_n, \alpha_n; f(\delta)|_k$ -summability and Quasi- $f$ -power increasing sequence.
