Abstract

The purpose of this paper is to introduce the concepts of intuitionistic \hat{B} - closed set, intuitionistic regular open set, intuitionistic semi-regular set, intuitionistic t -set and intuitionistic α^* set. The concepts of intuitionist \hat{B} -closed set, intuitionistic \hat{B} -continuity, are introduced and studied. Besides providing some interesting properties among the sets introduced and discussed.

Key Words : *Intuitionistic \hat{B} -closed set, Intuitionistic regular open set, Intuitionistic t -set, Intuitionistic α^* set, Intuitionistic \hat{B} continuity.*
