### **Abstract**

In this paper we study some properties of heaps like algebraic structure with a ternary operation in combination with types of groupoids, introducing meanings of ternary operation from multiplication, heaps from multiplication and of ternary groupoid. Further, we constructed a laterally commutative heap in Desargues plane.

-----  
Key Words : *Ternary operation from multiplication, Heaps from multiplication, Right solvable Ward groupoid, Ternary groupoid, Laterally commutative heap, Subtractive groupoid, Desargues plane.*
